PUBLIC NOTICE FOR THE DEVELOPMENT OF A MOBILE APP

SUBGRANT

(APPROVED WITH resolution n.709 31.08.2015)

Italy ★ Egypt ★ Jordan ★ Lebanon ★ Palestine ★ Spain ★ Tunisia

1.CONTEXT

I AM is a Mediterranean cooperation project funded by the European Union's ENPI CBC Med programme. It takes place from 2012 to 2015, is led by the City of Alghero in Italy and involves 13 partners in 7 Mediterranean countries (Italy, Egypt, Jordan, Lebanon, Palestine, Spain, Tunisia). Total budget is € 3.060.650 of which the ENPI CBC MED contribution makes up 90% (€ 2.754.583).

The Mediterranean as a whole attracts around 30% of international arrivals and tourism receipts. Increased international competition is nevertheless impacting on the position of the Mediterranean region as a leading destination in the global market. Product diversification and innovative tourism services are key drivers to maintain and enhance the attractiveness of the Mediterranean destinations on international markets. This is the purpose of the I AM project, which aims at developing innovative multimedia technologies for the management and enhancement of cultural and natural heritage.

The project has as its main goal to bring together experts in two fields: IT/multimedia and tourism. This cross-sector cooperation system will develop innovative services for the enhancement of natural and cultural heritage sites, leading to an improvement of tourists' experience. It focuses on the use of Augmented Reality (AR), multimedia and interactive techniques. Activities include training and pilot AR applications for one heritage site in each of the 7 participating countries, Augmented Reality Festivals and the creation of an international network of Augmented Reality (and related) professionals interested in providing their services to the heritage and tourism sector.

www.comune.alghero.ss.it

Head of Unit 1 Mr. Giovanni Salvatore Mulas

4. SUBJECT OF THE NOTICE

The Municipality of Alghero intends to provide incentives to implement projects that, through augmented reality technologies and related techniques, are able to promote cultural and natural heritage of Alghero's area, to be included within the activities of the European project "I AM - International Augmented Med", of which it is lead partner.

The present notice refers to the award of subgrants **for the design, planning and implementation of a game application for mobile devices, smartphones and tablets, running on Android and iOS, capable of enhancing, from an educational point of view, the archaeological site of Nuraghe Palmavera.**

Proposed projects must have the following characteristics:

- Refer to the heritage and the cultural landscape, the history and traditions of the city of Alghero, with a clear objective of promoting tourism in the area involved;
- demonstrate the potential of using IT/multimedia applications in promotion of sites and/or in providing information about them;
- provide a fresh, innovative, creative perspective about such sites, and communicate to a wide audience of spectators regardless of gender, age and background.

Successful projects will be presented at the final Festival of the I AM project to be held in Alghero next September 25 and 26.

5. PARTICIPANTS

The call is open on equal terms to all natural and legal persons from the following list of countries (partners and associate partners of the I AM project are excluded from this procedure):
